

WHAT IS CLAIMED IS:

1. A system for storing ink stamps, said system comprising:
a storage rack having a first magnetic mount component; and
an ink stamp having a second magnetic mount component and being adapted to be mountable on said storage rack.
2. The system of claim 1, wherein said first magnetic mount component is a magnetically attractive material and said second magnetic mount component is a permanent magnet.
3. The system of claim 1, wherein said first magnetic mount component is a permanent magnet and said second magnetic mount component is a magnetically attractive material.
4. The system of claim 1, wherein said storage rack is a table-top rack having a base and a storage panel.
5. The system of claim 4, wherein said storage rack includes a storage panel having a first side and a second side, and wherein said first side and said second side are each equipped with said first magnetic component and said ink stamp is magnetically mountable on said first side and/or said second side.
6. The system of claim 5, wherein said storage panel includes multiple storage panels.
7. The system of claim 4, wherein said storage panel is rotatably mounted on said base.

8. A system for storing ink stamps, said system comprising:
 - a wall-mountable storage strip comprising a first magnetic mount component, wherein said storage strip is adapted to be mountable on a wall; and
 - an ink stamp having a second magnetic mount component and adapted to be mountable on said storage strip.
9. The system of claim 8, further comprising a wall-mounting means for mounting said storage strip on a wall.
10. The system of claim 9, wherein said wall is a fabric wall and said wall-mounting means is a fastener.
11. The system of claim 8, wherein said storage strip includes a substrate on which said first magnetic mount component is mounted.
12. An ink stamp having a mounting face said ink stamp comprising a permanent magnet assembled in said mounting face.
13. The ink stamp of claim 12, wherein said ink stamp is a self-inking stamp.
14. The ink stamp of claim 12, wherein said ink stamp is a non-self-inking stamp with a handle.
15. A storage rack for holding magnetic items, said storage rack comprising a base, a storage panel, and an anti-slip means;
 - wherein said storage panel is a substantially flat panel having a metallic storage panel surface containing ferrous material,
 - wherein said storage panel is fixedly attached to said base and extends upward from said base at an angle between 45 degrees and 90 degrees, and
 - wherein said anti-slip means is provided on a bottom surface of said base.

16. The storage rack of claim 15, wherein said base and said flat panel are constructed as a single piece of acrylic material and said storage panel surface is a metallic strip that is adhesively attached to said flat panel.

17. The storage rack of claim 15, wherein said anti-slip means is a two-sided adhesive pad that is attached to said bottom surface of said base, and wherein at least one side of said two-sided adhesive pad is coated with a reusable adhesive.
